SUBSCRIPTION ORDER CARD

**Available online**
**www.jtrauma.com**

*Members of the American Association for the Surgery of Trauma, the Eastern Association for the Surgery of Trauma, the Trauma Association of Canada, and the Western Trauma Association receive the Journal as a benefit.*

*Please specify institution & training status.

Residents of AL, CO, DC, FL, GA, HI, IA, ID, IN, KS, KY, LA, MD, MO, ND, NM, NV, PR, RI, SC, SD, UT, VT, WA, WV add state sales tax. In Canada, add GST. Subscriptions outside the U.S. must be prepaid in U.S. dollars. Rates are valid through August 31, 2002.

TA S2EMS065

**The Journal of Trauma® Injury, Infection, and Critical Care**

*Sponsored by the American Association for the Surgery of Trauma*

Editor: **Basil A. Pruitt, Jr., MD** Issued Monthly ISSN: 0022-5282

You get a specific focus on traumatic injury…but the papers cover a wide range of subjects within that general field. So you'll find information on assessing the nature of an injury, the effects of new drug therapies, and recommendations for surgical approaches.

☐ Personal $268/yr ☐ Institutional $354/yr ☐ In-training* $157/yr
☐ 3 yrs ☐ 2 yrs ☐ 1 yr ☐ New subscription ☐ Renewal
Add $73/yr outside the U.S. All prices include a handling charge.

PAYMENT OPTIONS: ☐ Check enclosed (Payable to Lippincott Williams & Wilkins)
☐ Bill me (U.S. only) ☐ Mastercard ☐ Am Ex ☐ VISA ☐ Discover

# SUBJECT INDEX, VOLUME 52

Abdomen
  blunt trauma
    bilateral diaphragm rupture, case report, 560
    delayed laparotomy as quality improvement measure, 426
    duodenal, nonoperative management, case report, 979
    hepatic artery injury, reconstruction with gastroduodenal artery, long-term follow-up study, case report, 780
    intra-abdominal free fluid in, laparotomy indications, 1134
    intrapancreatic bile duct injury and, case report, 786
    kidney, conservative management, children, 928
    thoracic handlebar hernia, case report and management, 165
  free fluid patterns after blunt spleen/liver injury, children, 85
  gunshot wounds, superior mesenteric artery-duodenal fistula as late complication in, case report, 554
  intra-abdominal bleeding, time to laparotomy effects on survival, 420
  intra-abdominal testicular seminoma rupture, hemorrhage caused by, case report, 1000
  motorcycle crashes, incidence, severity, and patterns, 548
  open, staged primary closure of (letter), 1013
Abdominal compartment syndrome
  blunt liver injury and, multimodality therapy effects, case report, 982
  hemorrhagic shock and, bacterial translocation effects, 13
  hemorrhagic shock and resuscitation and, 625
ABO blood group, deep venous thrombosis and, trauma patients, 112
Adolescents, firearm availability and unintentional death, suicide, and homicide, 267
Adrenocorticotropic hormone, infectious complications in brain injuries and, 339
Air, compressed, colorectal blowout from, case report, 793
Air embolism, traumatic, motorcycle related, 187
Airway management, LMA-unique in prehospital trauma patient, semirigid cervical collar and, 162
Alcohol abuse/intoxication
  hemodynamic, metabolic, and cytokine response in hemorrhagic shock and, 675
  immune response association with multiple organ dysfunction syndrome, 95
Alimentary tract, blunt trauma of, nonoperative management, case report, 979
Ambulance service, hospital-based air, discontinuation of, trauma patient outcomes and, 486
Amputation, high-energy lower extremity trauma and, factors influencing decision-making, 641
Anastomosis, handsewn vs. stapled, penetrating colon injuries, comparison study, 117
Anthropometry, injury rates in restrained drivers, body habitus role, 1116
Antiplatelet therapy, in blunt carotid trauma, comparison with heparin therapy, 896
Aortic dissection, blunt chest trauma and, case report and mechanism of injury, 380
Aortic intimal injuries, blunt, outcome after nonoperative management, 475
Aortic rupture
  blunt traumatic
    covered endovascular stent in repair, case report, 1223
    intraluminal aortic fat as presentation of, case report, 1222
  in paragliding injuries, case reports, 567
Aortic valve disruption, after blunt chest trauma, case report, 377
Aortic valve endocarditis, in burn injury, case report, 406
Apoptosis, after polytrauma and shock, rats, 104
Arterienteric fistula, as complication after abdominal gunshot wounds, case report, 554
Arteriovenous fistula, popliteal traumatic, diagnosis and management of, 739
Arthroscopy, posterior cruciate ligament reconstruction with quadruple hamstring tendon graft, 938
Arthroplasty, total knee, infection in, arthrodesis and limb lengthening in treatment of, case report, 359
Artificial neural network, bullet trajectory as predictor of damage control needs in gunshot wounds and, 852
Atrioventricular valve rupture, after blunt chest trauma, transesophageal echocardiography role, case report, 990

Bacteremia, blood culturing practices in trauma intensive care unit, antibiotic use effects on, 463
Bacterial translocation, hemorrhagic shock and abdominal compartment syndrome and, 13
Barrier precautions, use in trauma care, 540
Basilar artery occlusion, endovascular management of, after thoracic aorta trauma, case report, 775
Bean bag gun
  penetrating chest trauma and, case report, 767
  penetrating injury from, case report, 576
Behavior, multiple head injury effects on, rat model, 708
Bicycle injury, thoracic handlebar hernia, case report and management, 165
Bile duct injury, intrapancreatic, case report, 786
Biochemical markers, in traumatic brain injury, review article, 798
Biological warfare, health care provider concerns, review article, 179
Bladder, intraperitoneal and extraperitoneal rupture of, case report, 606
Bladder pressure, approach to diagnosis of, 1169
Blood culturing, practices in trauma intensive care unit, antibiotic use effects on, 463
Blood flow autoregulation, cerebral, cocaine exposure effects on, 912
Blood gas analysis, initial evaluation of nonintubated blunt trauma patient, 601
Blood group, deep venous thrombosis and, trauma patients, 112
Blood pressure, in hemorrhagic shock, alcohol intoxication effects on, 675
Blood transfusion, impact in trauma patients (letter), 1224
Blood-borne pathogens, transmission during trauma care, barrier precautions use and, 540
Blunt trauma
  abdomen
    delayed laparotomy as quality improvement measure, 426
    intra-abdominal free fluid in, laparotomy indications, 1134
  acute thoracic aortic aneurysm, endovascular management of, case report, 387
  acute thoracic aortic rupture, endovascular stent graft repair for, case report, 154
  airbag-mediated craniocervical injury, child, case report, 587
  aortic intimal injuries, outcome after nonoperative management, 475
  aortic rupture
    intraluminal aortic fat as presentation of, case report, 1222
    in paragliding injuries, case reports, 567
  bilateral diaphragm rupture, case report, 560
  cardiac, in infant, child abuse and, case report, 759
  carotid, antiplatelet therapy vs. heparin for management, 896
  cervical, bilateral vertebral artery dissection after, case report and literature review, 1186
  cervicothoracic, seat belt-mediated, vascular injury detection, adults and children, 618
  chest
    aortic and mitral valve disruption after, case report, 377
    aortic dissection after, case report and mechanism of injury, 380
    atrioventricular valve rupture after, transesophageal echocardiography role, case report, 990

cardiac tamponade after, child, case report, 573
multiple rib fractures, thoracoscopic resection of, case report, 391
right atrial and ventricular thrombi after, case report, 765
colorectal blowout from compressed air, case report, 793
complex traumatic hernia, approach for repair of, case report, 756
diaphragmatic rupture
after high-speed motor vehicle crash, case report, 410
deferred treatment impact, 633
duodenal, nonoperative management of, case report, 979
hepatic artery injury, reconstruction with gastroduodenal artery, long-term follow-up study, case report, 780
innominate artery
bovine arch and, case report, 1002
and left common carotid artery rupture, case report, 571
intrapancreatic bile duct injury and, case report, 786
knee dislocation, popliteal artery injury risks, physical examination safety and accuracy and, 247
liver
abdominal compartment syndrome and, multimodality therapy effects, case report, 982
abdominal free fluid patterns after, children, 85
delayed hemorrhage after, case report, 556
early angiographic embolization in, 1097
hemoglobin effects on tumor necrosis factor-á production in monocytes and, 449
hepatic angiography in laparotomy and, 1102
transarterial embolization efficacy and limitations in, 1091
mortality, helicopter transport and, 136
nonintubated patient, arterial blood gas analysis in initial evaluation of, 601
obtunded, cervical stability evaluation efficiency and cost-effectiveness, 54
renal, conservative management, children, 928
restraint and seat position role in facial fractures, children, 693
spleen, abdominal free fluid patterns after, children, 85
subcutaneous hemorrhage and, transcather arterial embolization effects, case report, 997
thoracic
myocardial contusion significance after, 479
prehospital intubation without respiratory insufficiency, trauma registry analysis, 879
thoracic aortic rupture
age effects on incidence and characteristics, motor vehicle crashes, 859
periaortic hematoma on CT scan as indicator of, 699
transverse colon herniation into parietal wall after, case report, 810
ureteropelvic junction, in patient with one kidney, case report, 167
Body cooling, cold fluid infusion, in hemorrhagic shock, effects on survival, pig model, 1056
Bone, long, demineralized bone matrix in bone regeneration, 933
Bone matrix, demineralized, bone regeneration and, 933
Bone regeneration, demineralized bone matrix and, 933
Book reviews
Critical Care Focus
Volume 4: Endocrine Disturbance, 1010
Volume 7: Nutritional Issues, 1011
Critical Care Focus: Cardiology in Critical Illness, 178
Ultrasound in Emergency Medicine and Trauma, 603
Bovine arch, innominate artery blunt trauma, case report, 1002
Brain
intracranial pressure, strain gauge measurement, history of, review article, 172
perfusion pressure, cerebral oximetry and, in traumatic brain injury, 40
Brain injuries
infectious complications in, inflammatory and endocrine response as indicator of, 339
traumatic
effects on family, 1121
evidence-based guideline compliance in trauma centers, 1202
Brain injury
cocaine exposure effects on cerebral blood flow autoregulation and carbon dioxide reactivity, 912
traumatic
age as mortality and outcome predictor, 907
biochemical serum markers of, review article, 798
cerebral oximetry and cerebral perfusion in, 40
hyperventilation in, consensus guidelines and clinical practices, 47
Bullet embolization, from left internal iliac vein to right ventricle, case report, 772
Bullet trajectory, as predictor of damage control needs in gunshot wound, artificial neural network model, 852
Burn injuries
45% total body surface area, artificial dermis effectiveness in treatment of, case report, 971
aortic valve endocarditis in, case report, 406
depth effects on interstitial fluid pressure and free radical production in, 683
inhalation injuries and, 351
shock after, oxygen balance parameters (letter), 1012
vitamin D depletion after, post-burn osteopenia and, children, 346
Calcaneus fractures, displaced intra-articular, open reduction and internal fixation of, 946
Calcium inhibition, proinflammatory gene signaling and macrophage responsiveness and, in sepsis, 434
Carbon dioxide, reactivity, cocaine exposure effects on, 912
Cardiac tamponade, after blunt chest trauma, child, case report, 573
Carotid artery
occlusion, endovascular management of, after thoracic aorta trauma, case report, 775
trauma, endovascular carotid stenting for, case report, 149
Cervical pain, spinal manipulation therapy for, cervical epidural hematoma after, case report, 585
Cervical spine injuries, immediate spinal cord decompression feasibility and outcome, 323
Cervical spine stability, evaluation in obtunded blunt trauma patients, efficiency and cost-effectiveness, 54
Chest trauma
blunt
aortic and after blunt chest trauma after, case report, 377
aortic dissection after, case report and mechanism of injury, 380
atrioventricular valve rupture after, transesophageal echocardiography role, case report, 990
cardiac injury in infant, case report, 759
delayed cardiac tamponade after, child, case report, 573
motorcycle crash-related, incidence, severity, and patterns, 548
multiple rib fractures, thoracoscopic resection of, case report, 391
right atrial/ventricular thrombi after, case report, 765
flail chest, surgical vs. internal pneumatic stabilization for management, 727
penetrating, bean bag gun, case report, 767
severe crushed, with flail segment, CT analysis, case report, 605
Chest tube, thoracostomy, guidelines effects on management efficacy, 210
Child abuse, blunt cardiac injury in infant, case report, 759
Children
abuse, trauma and, 4-year review study, 8
airbag-mediated craniocervical injury, case report, 587
blunt cardiac injury in infant, child abuse and, case report, 759
blunt renal trauma, conservative management, 928
blunt spleen/liver injury, abdominal free fluid patterns after, 85
burn injuries, vitamin D depletion after, post-burn osteopenia and, 346
delayed hemorrhage after hepatic blunt trauma, case report, 556
facial fractures, car restraint and seat position role in, 693

femoral shaft fractures, rigid intramedullary rodding complications, 504
firearm availability and unintentional death, suicide, and homicide, 267
level I trauma center care (letter), 189
motor vehicle crashes, health-related quality of life after, 88
restraint use and injury patterns in motor vehicle crashes, 745
survival probability estimates in Trauma and Injury Severity Score, age-adjusted weight and, 235
trauma, 4-year review study, 8
traumatic brain injury, effects on family, 1121
venous thromboembolism, risk factors for, 922
Clavicular fractures
distal, coracoclavicular ligament disruption and, surgical management of, 72
thoracic outlet syndrome secondary to, case report, 393
Clinical trials, scientific data from, 1017
Cocaine, carbon dioxide and cerebral blood flow effects, 912
Cognitive function, head injury in multiple trauma, SF-36 for outcome characterization, 527
Colon
penetrating trauma, handsewn vs. stapled anastomosis, 117
transverse, herniation into parietal wall after blunt trauma, case report, 810
Colorectal injuries, blowout from compressed air, case report, 793
Compartment syndrome, long-term outcome, after Hanshin-Awaji earthquake, 33
Concussions, multiple, behavior effects, rat model, 708
Consecutive tissue transfer, in femur fracture, case report, 169
Coracoclavicular ligament disruption, distal clavicle fracture and, surgical management of, 72
Coronal discharge, lightening injury and, on airplane, case report, 579
Cortisol, infectious complications in brain injuries and, 339
Cranial base injury, penetrating, multidisciplinary management, 1192
Craniocervical injury, airbag-mediated, child, case report, 587
Creatine kinase, as marker in traumatic brain injury, review article, 798
Crossbow injury, head, case report, 1009
Crush injuries
chest, with flail segment, case report, 605
intraperitoneal and extraperitoneal rupture of bladder, case report, 606
long-term outcome, Hanshin-Awaji earthquake, 33
Cytokines
activation of, in hemorrhagic shock and abdominal compartment syndrome, 625
expression profiling, after hypertonic saline exposure, 867
infectious complications in brain injuries and, 339
production of, mesenteric lymph, gut microflora effects on, in hemorrhagic shock, 1178
response, in hemorrhagic shock, alcohol intoxication effects on, 675

Dalteparin sodium, during resuscitation, hemorrhagic shock-induced leukocyte rolling and, 1062
D-dimer, levels, role in exclusion of thromboembolism (letter), 813
Debridement, radical, long-term outcome of crush syndrome after Hanshin-Awaji earthquake, 33
Decompression, immediate spinal cord, cervical spine injuries and, feasibility and outcome, 323
Demographics, motor vehicle crash fatalities, race and demographic factor analysis, 752
Dermis, artificial, burn injuries over 45% total body surface area and, case report, 971
Dextran, polymorphonuclear leukocyte response effects, comparison with hypertonic saline, 285
Diabetes, insulin-dependent, low-impact fall vs. motor vehicle crash incidence in, 660
Diaphragm rupture
after high-speed motor vehicle crash, case report, 410
bilateral, presentation and case report, 560
blunt, deferred treatment impact, 633
Diaspirin cross-linked hemoglobin, hemorrhagic shock effects, mortality efficacy analysis, 887
Dive tank explosion, lower extremity replantation and (letter), 608
Driving, aggressive, risks and concerns, 217
Duodenal trauma, blunt, nonoperative management of, case report, 979
Duverney's fracture, neurologic injury in, case report, 370

Echocardiography
transesophageal
atrioventricular valve rupture after blunt chest trauma, case report, 990
blunt aortic intimal injuries, outcome after nonoperative management, 475
transthoracic, cost-effectiveness in critically ill surgical patients, 280
Edema
burn injury depth effects on, 683
posttraumatic, lower limbs, pathomechanism of, 315
Education
medical students, Trauma Evaluation and Management module teaching effectiveness, 847
resuscitation training, human patient simulator in, trauma team performance evaluation, 1078
Elbow, function, intramedullary nailing for humeral shaft fracture and, functional outcome and method comparison, 60
Elderly
brain injury, age as mortality and outcome predictor, 907
hip fractures, pertrochanteric, Gotfried percutaneous compression plate vs. dynamic hip screw, comparison study, 293
transcatheter arterial embolization of spleen, aortic endovascular stent grafting, surgical management, case report, 382
trauma, preexisting conditions effects on mortality in, 242
trauma outcomes, trauma center vs. nontrauma center, 79
Embolization
early angiographic, in blunt liver injury, 1097
transarterial, efficacy and limitations in severe hepatic injuries, 1091
Emergency department, intra-abdominal bleeding after abdominal trauma and, time factors to laparotomy effects on survival, 420
Emergency medical services
helicopter transport in blunt trauma, mortality and, 136
hospital-based air ambulance service discontinuation, trauma patient outcomes and, 486
LMA-unique in prehospital care, semirigid cervical collar and, case report, 162
uniformity in research (editorial), 1220
Endocarditis, aortic valve, in burn injury, case report, 406
Endotoxin-activated complement, myocellular sodium homeostasis during sepsis, 951
Enteral nutrition, percutaneous endoscopic gastrostomy tube placement methods, trauma patients, 26
Epidemiology
deep venous thrombosis and ABO blood group, trauma patients, 112
injury rates in restrained drivers, body habitus role, 1116
thoracic and abdominal injury in motorcycle crashes, incidence, severity, and patterns, 548
Ethnicity
motor vehicle crash fatalities, race and demographic factor analysis, 752
motor vehicle restraint use, enforcement and, 225
Extremity injuries: *see* Lower extremity; Upper extremity
Extremity vascular injuries, complex, temporary intravascular shunt in, 1129

Facial injuries
fractures, car restraint and seat position role in, children, 693
midfacial fractures, radiologic screening for, 689
traumatic air embolism and, motorcycle-related, 187
Factor VII, recombinant activated, trauma-associated hemorrhage and, case report, 400
Factor VIIa, recombinant, arterial pressure and mortality effects in hemorrhagic shock, 703
Fall injuries
iliac wing fracture, neurologic injury in, case report, 370

low-impact, in insulin-dependent diabetes patients, 660
Fasciotomy, crush syndrome after earthquake, long-term outcome, 33
Feeding tube, placement methods, trauma patients, 26
Femoral neck fracture, primary hyperparathyroidism and, during pregnancy, case report, 367
Femoral shaft fractures
Kasabach-Merritt syndrome as complication in treatment of, case report, 789
rigid intramedullary rodding of, complications, children, 504
Femur fractures
consecutive tissue transfer for, case report, 169
fixation, timing of, outcome in thoracic and head injury patients, 299
intratrochanteric, posterior sag effects on fixation stability, 544
Fibrin sealant, hemostasis efficacy, comparison study, 1107
Firearm injuries: *see* Gunshot wounds
Firearms, increased sales and recommended precautions (letter), 814
Flail chest, severe, surgical vs. internal pneumatic stabilization for management, 727
Fractures: *see also* specific type or site
distal radius, with coracoclavicular ligament disruption, surgical management, 72
mandibular condylar process, open vs. closed treatment, functional results, 498
open tibial, intramedullary nail vs. external fixation, 650
optimal time for stabilization procedures (letter), 811
pelvic, location of, rectal, bladder, urethral injury risks and, 205
posttraumatic osteomyelitis and, management and imaging options in, 1210
revision surgery, indolent infection detection, case report, 1198
Free radicals, production of, burn depth effects on, 683

Gastric incarceration, through occult traumatic diaphragmatic hernia, i scuba diver, case report, 146
Gastric mucosa, changes in, during stress ulceration development in trauma patients, 720
Gastrostomy, percutaneous endoscopic, tube placement methods, trauma patients, 26
Glasgow Coma Scale, head injury scaling system and, 667
Glial fibrillary acidic protein, as marker in traumatic brain injury, review article, 798
Gunshot wounds
abdominal, superior mesenteric artery-duodenal fistula as late complication in, case report, 554
bean bag gun
case report, 576
chest penetration by, case report, 767
bullet embolization from left internal iliac vein to right ventricle, case report, 772
bullet trajectory as predictor of damage control needs, artificial neural network model, 852
firearm availability and unintentional death, suicide, and homicide, children and adolescents, 267
increased firearm sales and recommended precautions (letter), 814
truncal, trauma team activation and, 276
Gut microflora, mesenteric lymph cytokine production and, in hemorrhagic shock, 1178

Habitus, body, injury rates in restrained drivers, 1116
Hamstring tendon, graft, arthroscopic reconstruction of posterior cruciate ligament and, 938
Head injuries
cerebral oximetry and cerebral perfusion in, 40
extensive pneumocranium, case report, 188
femur fracture and, timing of fixation effects on outcome, 299
heat shock protein levels after, correlation with survival, 611
monocyte expression of tissue factor and, 1071
multiple, behavior effects, rat model, 708
multiple injuries and affected body regions and, outcomes analysis, 962
in multiple trauma, SF-36 for outcome characterization, 527
new scaling system for outcome predictions, 667
penetrating
crossbow injury, case report, 1009
from wood slab, case report, 1008

Spleen
arterial embolization, aortic endovascular stent grafting and, surgical management, elderly patient, case report, 382
blunt trauma, abdominal free fluid patterns after, children, 85
Spleen-salvaging surgery, posttraumatic pseudoaneurysm secondary to, case report, 783
Splenectomy, fluid resuscitation and, in hemorrhagic shock after massive splenic injury, 253
Splenic injury, massive, hemorrhagic shock after, fluid resuscitation and splenectomy effects, 253
Splenic rupture, posttraumatic pseudoaneurysm secondary to spleen-salvaging surgery, case report, 783
Sports injuries
paragliding, aorta rupture determination in severe injuries from, case reports, 567
snowboarding, wrist injuries in, wrist protection device effects on incidence, 517
weightlifter, bilateral quadriceps tendon rupture, MRI analysis, case report, 582
Strain gauge, intracranial pressure measurement, history of, review article, 172
Subclavian artery compression, by arteriography before surgery for thoracic outlet syndrome (letter), 607
Suicide, firearm availability and, children and adolescents, 267
Surgery
acute thoracic aorta rupture after blunt trauma, endovascular stent graft repair for, case report, 154
arthroscopic reconstruction of posterior cruciate ligament with quadruple hamstring tendon graft, 938
blunt diaphragmatic rupture, deferred treatment impact, 633
carotid artery trauma, endovascular carotid stenting for, case report, 149
displaced intra-articular calcaneal fractures, open reduction and internal fixation of, 946
distal clavicle fracture with coracoclavicular ligament disruption, 72
femoral shaft fractures, rigid intramedullary rodding complications, children, 504
femur fracture
consecutive tissue transfer in, case report, 169
in thoracic/head injuries, timing of fixation effects on outcome, 299
flail chest, surgical vs. internal pneumatic stabilization for management, 727
fracture revision, indolent infection detection, case report, 1198
hip fractures, pertrochanteric, elderly patients, Gotfried percutaneous compression plate vs. dynamic hip screw, 293
humeral nonunions, locked nailing with interfragmentary wiring for management, 733
humeral shaft fracture, intramedullary nailing method comparison, functional outcome and, 60

intertrochanteric hip fractures, posterior sag effects on fixation stability, 544
intramedullary nailing, antibiotic-impregnated bone cement nail, septic nonunion in open tibial fracture, case report, 364
limb salvage in high-energy lower extremity trauma, factors influencing decision-making, 641
metacarpal fractures, plate fixation complications, 535
open abdomen, staged primary closure of (letter), 1013
open tibial fractures, intramedullary nail vs. external fixation, 650
penetrating colon trauma, handsewn vs. stapled anastomosis, 117
spinal fusion, hyperbaric oxygen therapy effects, 333
spleen-salvaging, posttraumatic pseudoaneurysm secondary to, case report, 783
tibial fracture, reamed and unreamed intramedullary nailing of, central hemodynamics and oxygenation in, 308
transthoracic echocardiography and, cost-effectiveness in critically ill patients, 280
Surveillance duplex scanning, deep venous thrombosis prevention role, trauma patients, 453
Survival probability, estimates in Trauma and Injury Severity Score, age-adjusted weight and, children, 235

Tear gases: *see* Incapacitant spray, chemical
Terrorism, biological warfare, health care provider concerns, review article, 179
Testicular seminoma, intra-abdominal, rupture of, hemorrhage caused by, case report, 1000
Thermal injuries: *see also* Burn injuries
Thoracic aorta rupture
blunt
age effects on incidence and characteristics, motor vehicle crashes, 859
endovascular stent graft repair for, case report, 154
periaortic hematoma on CT scan as indicator of, 699
endoluminal stent graft management effects, 1173
endovascular management of carotid and basilar artery occlusion after, case report, 775
Thoracic aortic aneurysm, acute, endovascular management of, case report, 387
Thoracic outlet syndrome
clavicular fracture and, case report, 393
subclavian artery compression by arteriography and (letter), 607
Thoracic trauma
blunt
femur fracture and, timing of fixation effects on outcome, 299
myocardial contusion significance after, 479
prehospital intubation, trauma registry analysis, 879
motorcycle crashes, incidence, severity, and patterns, 548
Thoracostomy tube, placement guidelines effects on management efficacy, 210
Thromboembolism
D-dimer levels for exclusion of (letter), 813
venous, risk factors in pediatric trauma, 922
Thrombosis, deep venous
ABO blood group and, trauma patients, 112
surveillance duplex scanning role in prevention, trauma patients, 453
vena cava filtration in spinal cord injury, 902
Thrombus, right atrial/ventricular, after blunt chest trauma, case report, 765
Tibial fractures
open
intramedullary nail vs. external fixation, 650
septic nonunion, antibiotic-impregnated bone cement nail treatment, case report, 364
reamed and unreamed intramedullary nailing of, central hemodynamics and oxygenation in, 308
Tibiofibular ligament avulsion fracture, in lateral malleolar fracture, 655
Tissue factor, monocyte expression of, in injury, 1071
Trauma: *see also* specific type or site
access to care, 4
alcohol-abusing patients, multiple organ dysfunction syndrome and inflammatory reaction in, 95
biological warfare, health care provider concerns, review article, 179
blunt, high-energy lower extremity, amputation/reconstruction decisions in, 641
brain injury, age as mortality and outcome predictor, 907
carotid artery, endovascular carotid stenting for, case report, 149
cervical spine injuries, immediate spinal cord decompression feasibility and outcome, 323
deep venous thrombosis, surveillance duplex scanning role in prevention of, 453
geriatric, preexisting conditions effects on mortality in, 242
heat shock protein levels correlation with survival, 611
major, survival after initial rural hospital treatment, 1019
malaria development after, review study, 259
maxillofacial, mandibular condylar process fractures, open vs. closed treatment effects on functional results, 498
outreach program for academic trauma center, 840
pediatric, 4-year review study, 8
pregnancy screening in, 1125
resuscitation, staff workload during, 492
resuscitation training, human patient simulator in, trauma team performance evaluation, 1078
sepsis after, single nucleotide polymorphism as risk factor, 817
stress ulceration development, gastric mucosa changes and, 720
surgical critical care training and, 1087
thrombotic risk in, blood group importance, 112
transfused blood impact (letter), 1224
transthoracic echocardiography, cost-effectiveness in critically ill surgical patients, 280
triage rules validation, 1153
undetected injuries in level I trauma center, 715
venous thromboembolism in, risk factors for children, 922
very elderly patient, outcome, comparison with nontrauma center care, 79
Trauma and Injury Severity Score
survival probability estimates, age-adjusted weight and, children, 235
unexpected survivors, 229
Trauma care
barrier precautions use in, 540
hospital-based air ambulance service discontinuation effects on outcomes, 486
regionalization of, British Columbia, 6
spectrum of, 4
uncontrolled hemorrhage, polynomial neural network role in mortality predictions, 130
Trauma centers
academic, outreach program for, 840
blood culturing practices in, antibiotic use effects on, 463
designation and accreditation during trauma system evolution, 827
efficacy of, unexpected survivors under Trauma and Injury Severity Score, 229
elderly trauma outcomes, comparison with nontrauma center, 79
level I
missed injuries in, 715
pediatric care in (letter), 189
profile of directors, 835
major trauma, survival after initial rural hospital treatment, 1019
pediatric, level I (letter), 189
traumatic brain injuries, evidence-based guideline compliance in trauma centers, 1202
Trauma Evaluation and Management module, teaching effectiveness for medical students, 847
Trauma outcomes, head trauma in multiple trauma, SF-36 for outcome characterization, 527
Trauma scoring systems
in blunt multiple trauma, outcome study, 1160
Trauma and Injury Severity Score, survival probability estimates in, age-adjusted weight and, children, 235
Trauma systems
academic trauma center, outreach program for, 840
development, profile of level I trauma center directors, 835

evolution, trauma center designation and accreditation during, 827
regional, blunt polytrauma patient outcome and, 1030
Trauma team
activation of, truncal gunshot wounds and, 276
performance evaluation, human patient simulator in resuscitation training, 1078
Triage
rules, validation in attending response to emergency department, 1153
uncontrolled hemorrhage, polynomial neural network role in mortality predictions, 130
Tumor necrosis factor-á
hemoglobin effects on production in monocytes, 449
infectious complications in brain injuries and, 339

Ulcerations, stress, development in trauma patients, gastric mucosa changes during, 720
Ultrasound
pneumothorax diagnosis, lung sliding on color Doppler role in, case report, 769
pneumothorax diagnosis and (letter), 607
Universal Precautions, use in trauma care, 540
Ureteropelvic junction, traumatic disruption, in patient with one kidney, case report, 167
Urinary tract injury, risks of, pelvic fracture and, 205

Vascular injuries, complex extremity, temporary intravascular shunt in, 1129
Vascular permeability, burn depth effects on, 683
Vena cava filtration, in acute spinal cord trauma, 902
Venous thromboembolism, surveillance duplex scanning role in prevention, trauma patients, 453
Venous thrombosis, posttraumatic edema after lower limb injury and, pathomechanism of, 315
Vertebral artery dissection, bilateral, after blunt cervical trauma, case report and literature review, 1186
Violence
chemical incapacitant spray use, review article, 595
firearm availability and, children and adolescents, 267
Vitamin D depletion, after burn injury, post-burn osteopenia and, children, 346

Wartime injury, malaria development after, review study, 259
Western Trauma Association, 32nd annual meeting, abstracts, 192
Whiplash syndrome, late, cerebral perfusion, P300 recording and neuropsychological test correlation in, 521
Workload Scoring System, staff workload during trauma resuscitation, 492
Wound closure, Integra use in skin grafting, one-step method for, rat model, 122
Wrist injuries, severe, snowboarding, wrist protection device effects on incidence, 517

Zygomatic fractures, radiologic screening for, 689
